

haida

12' x 8'

Blending in naturally

The Haida Indian tribes (pronounced Hy-da) of Alaska and B.C. boast of a culture rich in social organization, indicative of a fine and fulfilling balance between man and nature.

When we developed the Haida, we felt that both the look and feel of the structure represented, to a degree, the spirit of the Haida people...a structure that would be functional yet fit beautifully into your surroundings.

The Haida will offer you a terrific and affordable way to experience outdoor living and will make a perfect starter cabin, studio, private retreat, office, or poolside cabana.

Included with the Haida are two functional awning windows and a keyed lockset for the door.

Interior of 12' x 8' Haida...perfect as a fishing retreat.

“...three hours to assemble using three people!”

Haida above built by Paul Baines of Newmarket, Ontario
