THE CANBERRA 'UTILITY' RANGE

Base Diagrams

- ◆ Size 5x3, 6x3 and 8x3 shed.
- ◆ Finished in **Federation Green/ Cream.**
- ◆ Single hinged door.

Base Diagram

- ◆ Size 5x3 box.
- ◆ Available in a **Mist Green finish— Higher gauge steel.**
- ◆ Lifting lid for easy access.

OPTIONAL EXTRAS

Opening Window: 3mm thick sliding acrylic window. Can be fitted to any shed. Approximately 615 W x 330 H mm. Kit supplied with cut-down wall panel. **Only available on certain models (please enquire for details).**

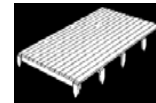

Skylight: Translucent roof sheet available to permit daylight to the shed interior. Replaces one full width roof panel. **Fits all apex roofed sheds only.**

Corner Shelves: Galvanised shelves and supports supplied in kits of **one** or **three** shelves. Simple fitting. Provides a good level of storage space to help organise all those small items. **Only available on certain models (please enquire for details).**

Rear Shelves: Long shelf supports and rails covered with 12mm MDF shelving material. Fits to rear wall of the shed, for secure shelving. Kits comprise of parts for one or two levels of shelving. **Not suitable for storage box or low height pent.**

Wooden Floor Kit: Comprises fully pressure impregnated tongued & grooved boards and bearers. Nails included for assembly, plus screws to fix the shed base rail to the top surface of the floor. **Foundation Kit not required with this product option.**

Hilti Kit: Fits through pre-drilled holes in the base rail. Kit supplied complete with masonry drill bit. Used to secure a shed to an existing concrete or slab base. Screws are cross slot headed to enable removal later if required.

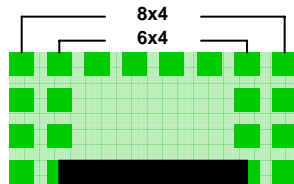

Foundation Kit: Comprises galvanised steel channels which assemble to give a foundation area. This should later be filled with concrete after first inserting a plastic sheet below to prevent dampness rising. **Wooden Floor kit not required with this product option.**
