

# Finnlife® Log cabins

More space to live, work and play

# Quality construction

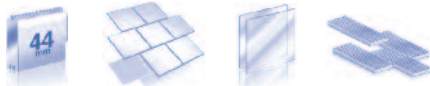

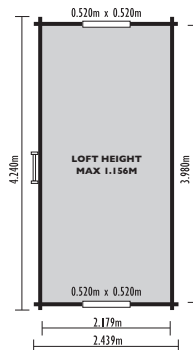

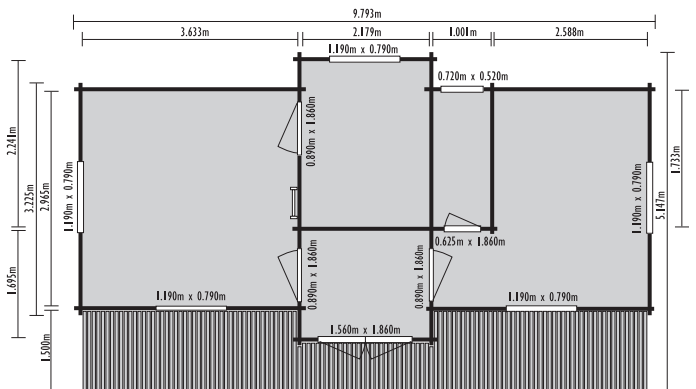

All Finforest Finnlife® log cabins are produced from the highest quality Nordic softwood, sourced from well managed and sustainable forestry. Log thicknesses vary from 19mm to 68mm depending on the model, and all provide a solid and durable structure to enjoy. All come with a range of quality fittings and most are finished with green shingle tile roof coverings. Selected models have double glazing and tongue and groove fitted roof and floor boards as standard. The log cabins are adaptable and some can be enhanced by adding a sauna, underfloor heating, insulation kit, flooring pack, guttering kit and security alarm. →p24 to 26 for details

# Helsinki

The largest model in the Finnlife range, the Helsinki has five ground floor rooms and a useful loft area. It's a multi-use space that readily adapts to serve a number of uses, from home office and gym to lounging area and playroom. Comes complete with decked terrace.

Log thickness    Square roof shingle tiles    Toughened glass double glazing    Decked terrace included

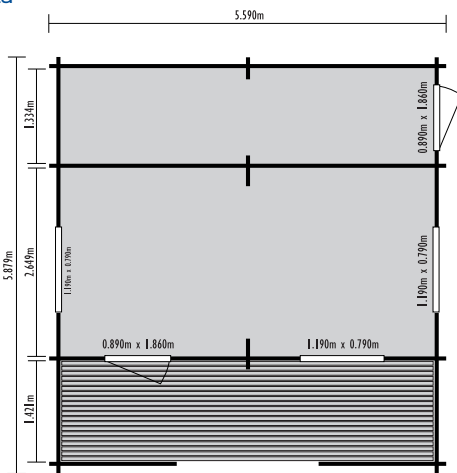

Log connection    Rooms    Loft space

Dimensions	Internal	External (excl. overhangs)
Width	9.533m	9.793m
Depth	3.980m	5.147m
Ridge height	-	3.580m
Area	29.99m <sup>2</sup>	46.53m <sup>2</sup>

# Kala & Ulos

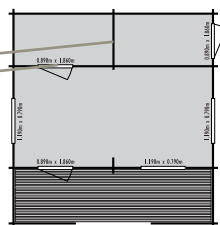

## Kala

## Ulos

With dividing wall and door access

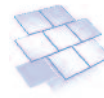

On the outside these cabins look identical, but in fact they have slightly different room configurations. The Kala has a full length lockable storage room at the rear, whilst the Ulos has a dividing wall half way along the storage room providing extra living space off the main room.

Both benefit from a substantial wall log thickness of 68mm and double glazing as standard.

Log thickness

Square roof shingle tiles

Toughened glass double glazing

Decked terrace included

Log connection

Dimensions	Internal	External (excl. overhangs)
Width	5.322m	5.590m
Depth	5.707m	5.879m
Ridge height	-	3.388m
Area	31.77m <sup>2</sup> *	32.86m <sup>2</sup>

\* Note: measurement includes the covered deck terrace.

Wood is the only building material that is truly renewable, if well managed. Forest certification schemes give assurance that the timber is legal and from sustainable sources. Finnforest UK sources certified timber over uncertified and is an approved Chain of Custody supplier.
