

Uusi 300 / 400 / 500

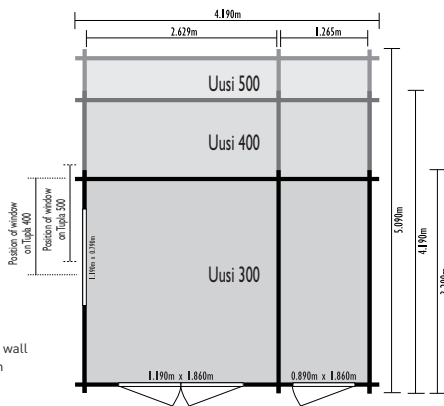

Koppelo 210

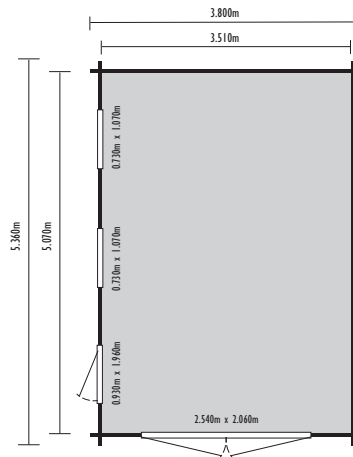

Similar to the Tupla, the Uusi models share the same design to the front. Each has double doors and a lockable storage room to the side. Choose from an approximate depth of 3m, 4m or 5m, dependent on your need and budget.

An ideal choice for a workshop, garage or studio. Comes with lockable double doors to the front and a single door and opening windows to the side. Also benefits from a low door threshold.

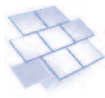

Note:
The Uusi 500 has a window on the side wall of the storage room

Note:
This model is supplied without a timber floor

Log thickness

Square roof shingle tiles

Toughened glass single glazing

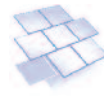

Log connection
