OPTIONAL EXTRAS

Foundation Kits – available for all Duramate, Woodbridge and Sidemate models only. Consisting of strong steel framework for making a firm foundation. **Included as standard for the Garage buildings.** These heavy duty, hot dipped galvanised steel frame kits are the perfect base for our **DuraMax** sheds. Easy to assemble before construction of the shed. No need for a conventional concrete or slab base – just perfectly level ground. After the shed is fully erected and secured to the foundation kit, flood out the interior with concrete for a smooth floor or cover with moisture resistant timber or chipboard. A strong plastic sheet should be placed below the whole area covered by the foundation kit to prevent rising damp.

Window Kit – available for all sheds except Little/Large huts.

NOTE: This window cannot be fitted retrospectively and must be inserted at the time of installation.

PLEASE NOTE: One is supplied with Vinyl Garage.

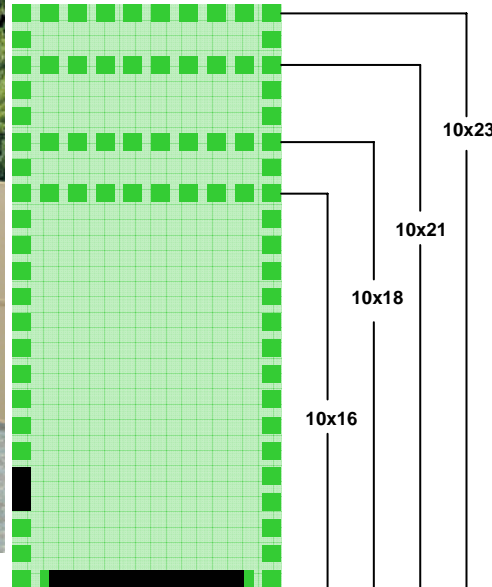

OPTIONAL ROOFLIGHT: Translucent panels which replace the opaque ridge covers supplied with the kit. If desired, the whole of the shed ridge can be converted to permit light into all the shed length.

PLEASE NOTE: One is supplied with each model of shed except the Sidemate 4x8, for which this product is not available.

THE 'VINYL GARAGE'

Base Diagrams

- ◆ Available in 4 sizes 10x16, 10x18, 10x21 and 10x23.
- ◆ Supplied with a complete foundation kit, which requires filling with concrete.
- ◆ Supplied with ramp sections for easy access.
- ◆ Supplied with Large hinged doors at the front and an additional personal access door at the side.
- ◆ This building features substantial heavy duty roof bracing at regular intervals along the length of the garage.
- ◆ Window supplied as standard.

DuraMax Vinyl Storage Sheds are clad with the highest quality PVC on a strong steel frame and supports.

These sheds provide safe and secure storage space to consumers. They are manufactured from a fire retardant durable PVC. They are weather resistant, and will never rust, rot, or require seasonal applications of sealants or paint / preservatives.

Assembly is simple, clean and safe, and can be completed in a few short hours. All parts are pre-cut, drilled and numbered for ease of assembly and packaging includes all necessary hardware as well as a step-by-step illustrated instruction manual. All you need to provide is a levelled surface, of either wood or concrete to match the size of the desired shed.

This ease of assembly makes **DuraMax Vinyl Sheds** the perfect solution for all your storage / hobby needs.
