ASGARD
SECURE STEEL STORAGE

THE ASGARD SOLUTION

STEEL STRENGTH
AND SECURE DESIGN

THE STRENGTH TO BEAT THE THIEVES

In accordance with our policy of continual product improvement, we reserve the right to amend the specification of these products without prior notification. All measurements are approximate and represent maximum external dimensions.

No part of this brochure may be reproduced by any means without prior written consent.

Asgard products provide the protection you need. Steel storage is our forte and we have developed a range of high security stores for use in a wide variety of applications. They're tough enough to withstand serious attack and are ideal for use in everything from gardens and workshops to farms, allotments, playgrounds and parks.

A HERITAGE YOU CAN TRUST

Asgard Secure Steel Storage is part of Flexiform Business Furniture Limited, a leading supplier of steel storage systems for over 40 years. The company can draw on a wealth of metal fabrication experience and a long history of engineering and manufacturing excellence. All Asgard products are manufactured using high quality materials and conform to stringent quality control procedures of ISO 9001:2000.

SECURITY WITH A TOUCH OF STEEL

All Asgard products, regardless of size or function, have been designed to beat the thieves. Most units are made from Galvalite, a tough galvanised steel, and most incorporate a variety of features intended to make the typical thief think twice.

Carcass is constructed from 1.2mm thick Galvalite. Doors and door surrounds are reinforced with 1.6mm thick steel box sections

Double doors on most models, with trap side bolted for additional security

Door frame and all joints reinforced to resist forced entry
If the handle is forced it will snap off, leaving the unit still locked and your valuables safe

Secure drill and pick resistant Euro cylinder lock protected by 2mm thick steel housing

Available in a variety of colours

ATTACK RESISTANCE THAT'S TRIED AND TESTED

The majority of Asgard units have been tested and approved by the Loss Prevention Certification Board to LPS 1175 Security Rating 1, which means they can withstand break-in attempts for a substantially greater period of time than traditional garden sheds. (Includes Centurion, Classic, Compact, Annexe, and Universal units)

Level, firm ground is required as a base for the units (not supplied). You may already have this available (e.g. concrete, tarmac), but if not, we recommend that you lay concrete or slabs (50mm thickness) prior to assembly/anchoring. See our website for minimum base measurements.

ASGARD ADDITION visibly better caravan storage

The average price of a static caravan is £24,000 and the last thing you want to do is de-value it by erecting a wooden or plastic storage unit which is unsightly, a potential fire hazard, requires constant maintenance and does little to protect the contents from inclement weather.

Purpose built unit, which has been matched in colour and size to harmonise with your caravan.

Tough, reliable external store

Sits conveniently under caravan windows

Reduces fire hazard compared to wooden and plastic storage.

DIMENSIONS A D D I T I O N

H - 1339mm - Front

H - 1444mm - Back

W - 1832mm

D - 924mm

Weight - 140kg

Also available, the Asgard Annexe unit, the same as the Addition unit in appearance, but with a number of extra security features designed to beat the thieves.

ASGARD ASGAS safe and secure gas storage

The Asgard Asgas unit was specifically designed for storage of two 47kg propane gas bottles. It not only conceals unsightly gas bottles, but acts as a deterrent to theft.

Suitable for static caravans, business and domestic use

Steel carcass and open back with tubular cross rails. Cylinders can be chained to rails for extra security

Top tube drilled for fitting of regulator (not included)
No need to fix to caravan

Vented slots in sides for gas dispersion

Removable base and integral ramp for easy access to change over cylinders

Lift-up lid for checking regulator and to shut off valves in emergency

Lockable door for universal lock to enable entry to gas supplier.

Asgas (four x 47kg storage unit also available)

ASGARD SARACEN AND CENTURION

ASGARD CLASSIC, COMPACT AND ANNEXE

BURGLARS HATE THEM!

With thefts of quad bikes, motorbikes and ride-on mowers increasing daily, security has become a major factor in the garaging of such high value machinery. The Asgard Centurion provides the perfect solution and is manufactured in modular sections, which enables you to decide on the exact size that you require.

The Centurion unit is supplied with an integral ramp allowing easy access to park your vehicle.

The Saracen, a smaller version of the Centurion, is ideal for use as a general equipment store in the garden or playground and on farms, building sites and allotments.

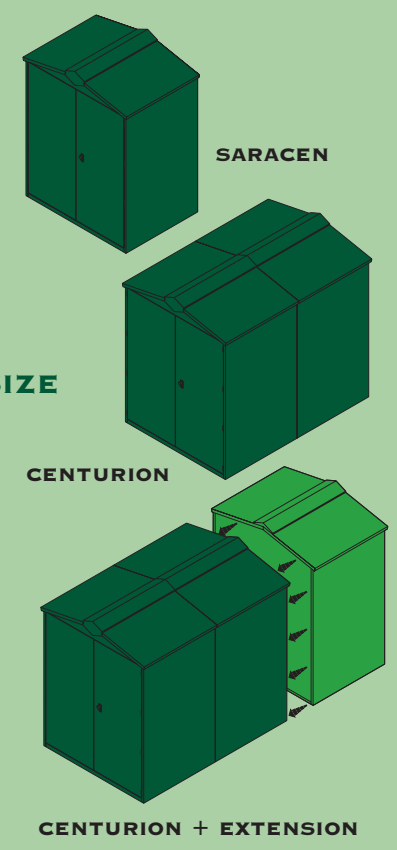

Centurion ramp

FITTINGS

Fittings are provided to enable the unit to be bolted to the ground. With the Centurion unit it is highly recommended that you install an MDF, chipboard or concrete/slab flooring after anchoring. See accessories on back page.

YOU DECIDE THE SIZE

The Saracen unit is 1 bay deep and the standard Centurion 2 bays deep. The Centurion unit can be extended as required, to provide unlimited secure storage space – you decide how long you want your Centurion to be.

WE DELIVER AND ASSEMBLE FOR YOU

The Centurion will be delivered and assembled by our engineers at your address for no extra charge. The Saracen is supplied flat packed for easy home assembly by the purchaser.

DIMENSIONS

- Height to Ridge - 1981mm
- Height to Eaves - 1829mm

The Asgard Classic, Compact and Annexe units provide attack-resistant protection for valuable equipment. All units are ideal for use as a garden store or a secure area inside a shed, workshop, garage or storeroom.

The Classic has double doors, which can be positioned either on the left or right hand side of the unit.

The Annexe has double doors, which again can be positioned to the left or right, but is lower than the Classic so it can fit conveniently under windows.

The Compact has double doors which are the full width of the front of the unit.

ASGARD UNIVERSAL AND HOME DELIVERY

Universal

Home Delivery

Home Delivery

ASGARD UNIVERSAL

SECURE STORAGE OF SMALLER VALUABLES

The Asgard Universal was originally developed for use by exhibitors at the Chelsea Flower Show to provide a safe place for petty cash, laptop computers, literature, confidential paperwork and other personal valuables that would be at risk on an open stand, or which needed safe overnight storage. However, the Universal is also suitable for domestic use, either fitted inside your home, garage or shed as a compact secure storage unit, or in temporary situations such as church fetes, school exhibitions or outdoor events. It's ideal for storing everything from power tools and DIY equipment to cameras, jewellery and important documents.

It has one adjustable full-length shelf that can be positioned at three heights. There are four holes in the base, which can be used to insert height adjusters to raise the unit from the ground.

ASGARD HOME DELIVERY

THE PERFECT DELIVERY RECEIVER WHEN YOU'RE NOT AT HOME

The Asgard Home Delivery box solves the problem of deliveries being made when you're not there to receive them. Whether it's a delivery from a mail order company or a supermarket or just a large item of post that's too big to go through your letter box, the Asgard Home Delivery will keep it safe for you until you get home.

The lid is left closed but unlocked until a delivery is placed in it. The delivery person follows simple instructions on the lid, pushing in the two locks on either side of the lid to secure.

DIMENSIONS

UNIVERSAL	HOME DELIVERY

What you need to protect depends on who you are and what your interests are. But whatever you put in - power tools, motor mowers, hedge trimmers, chain saws, gas barbeques, mountain bikes, children's bicycles, saddles and other tack, sports equipment, golf clubs, scuba diving gear, fishing tackle, motorcycle leathers, waterproofs and helmets - you can rest assured it will stay safe and secure.

Whatever your security requirements may be, Asgard Secure Steel Storage can provide the cost-effective solution.

QUALITY AND SERVICE TO MAKE LIFE EASIER ALL ROUND

SERVICE BACK-UP

The quality of our service is as impressive as the quality of our products. If you need any assistance, simply call us on 08456 580 730. We will usually come out within 48 hours, excluding weekends. If a lock is faulty, we will replace it free of charge, provided it is within one year of purchase. This service is also available if a lock or handle is damaged during an attempted break-in, however there will be a charge for this work.

ANTI-PERFORATION WARRANTY

Our products are low maintenance and have sufficient ventilation to avoid condensation forming. A 10-year anti-perforation warranty caused by rust is offered with most products. Please refer to our website for full terms and conditions of this warranty.

ASSEMBLY

The Universal, Home Delivery and Asgas units are delivered assembled and ready for use.

The Centurion unit will be assembled by our engineers at your address for no extra charge.

Classic, Compact, Addition, Annexe and Saracen units are delivered flat packed for easy home assembly by the purchaser. Assembly is quick and simple, and comprehensive instructions are supplied. Should it be required, an assembly service is offered for an additional charge.
