WoodBridge 10' x 13'	85" x 73"	125" x 157" x 85"	61" x 71 ¹ / ₄ "

DuraMax Vinyl Storage Sheds are clad with the highest quality PVC on a strong steel frame and supports. These sheds provide safe and secure storage space to consumers. They are manufactured from a fire retardant durable PVC. They are weather resistant, and will never rust, rot, or require seasonal applications of sealants or paint / preservatives. Assembly is simple, clean and safe, and can be completed in a few short hours. All parts are pre-cut, drilled and numbered for ease of assembly and packaging includes all necessary hardware as well as a step-by-step illustrated instruction manual. All you need to provide is a levelled surface, of either wood or concrete to match the size of the desired shed. This ease of assembly makes **DuraMax** Vinyl Sheds the perfect solution for all your storage / hobby needs.

OPTIONAL EXTRAS

Foundation Kits – available for each shed except for Little / Large Huts. Strong Steel framework for making a firm foundation.

Window Kit – available for all sheds except Little / Large Huts

These heavy duty, hot dipped galvanised steel frame kits are the perfect base for our **DuraMax** sheds. Easy to assemble before you construct the shed. No need for a conventional concrete or slab base – just perfectly level ground. After the shed is fully erected and secured to the foundation kit, flood out the interior with concrete for a smooth floor or cover with moisture resistant timber or chipboard. A strong plastic sheet should be placed below the whole area covered by the foundation kit to prevent rising damp.
