Prima Fifth Avenue Duo Maxi 300 x 480 / 28 mm

LUGARDE

All DUO models are standard delivered with an internal wall (till eaves height). This is designed this way to allow people to use their garden house as a place to sit in as well as storage for garden tools.

It is possible to take out the internal wall, if you do so, shorter wall beams of approx. 15 cm. will remain on each side.

In the standard package no mezzanine-floor will be delivered for the smaller partition. If you would require a mezzanine-floor for storage on the smaller partition, please mention this on your order. This can be delivered at extra costs. It is also possible to open the smaller partition and use it as a carport for example for your motorcycle or your wood for the stove. (see picture).

Prima Fifth Avenue Duo models can be built in reverse without indicating with your order (except for the Duo 180 x 240 cm. and the Duo 240 x 300 cm.). If you want to build your garden house in reverse, please check how you want your door to open. If you want your door to open the other way as the standard one, please mention this on your order (no extra costs).

All models are delivered inclusive of glass, pressure-impregnated foundation beams, chrome metalwork (unless indicated different), metal cap and aluminium weather vane or weather witch or a brass or chrome plated ball.

A wooden floor is optional (see pricelist).

The standard colour of the shingles is green, if you would like another colour (red, black, brown or blue) please mention this on your order.
